## Profile

Final-year student pursuing a Bachelor's degree in Mathematics and Computer Science at Université Ibn Tofail in Morocco, with a deep passion for web development. Alongside formal education, I have self-learned modern web technologies such as React.js, Next.js, Django, Sass, TailwindCSS, Node.js, Prisma, PostgreSQL, Git, Express.js, and Nest.js. I have built several projects for both personal training and clients, including websites for news agencies, non-profit organizations, and consultation agencies. I am now seeking a one-month internship to apply my expertise and contribute to a dynamic team.

### Skills

- Web Frameworks: React.js, Next.js, Django
- Backend: Node.js, Express.js, Nest.js
- Styling: Sass, TailwindCSS
- Database: Prisma, PostgreSQL
- Version Control: Git
- Project Experience: Client work in various industries
- Full-Stack Development: Frontend & Backend

# Education

#### **Bachelor's in Mathematics and Computer Science**

(Expected Graduation: June/July 2025) Université Ibn Tofail, Morocco

# **Projects**

#### **News Agency Websites**

Developed two websites using Next.js and Nest.js, delivering responsive and user-friendly platforms for a news agency.

#### Non-Profit Organization Website

Built a dynamic and visually appealing website for a non-profit organization, enhancing their online presence and community engagement.

#### **Consultation Agency Website**

Created a professional website for a consultation agency, showcasing their services and expertise effectively.

### Experience

#### Freelance Developer

[Location: Morocco] (January 2022 – Present)

- Developed web applications for various clients, utilizing modern technologies and best practices.
- Gained hands-on experience in full-stack development, project management, and client communication.

## **Career Objective**

Seeking an internship to apply my web development skills in a real-world environment. Eager to contribute to innovative projects and learn from experienced professionals in the industry.
